1971, 1972, 1975, 1976, 1977, 1978 – Winner of the Peace Race

2015 UEC Merit Award

Dear Mr. President, dear colleagues,

I would like to take this opportunity and present my candidature for the UEC Management Board. I believe that over the years of creative work in sports: having been a rider, a coach, a team manager, a President of the Russian Cycling Federation, member of the UEC and UCI Management Committee, in various commissions and in other leadership positions in everyday life, I have made many friends and contacts from various federations. Therefore, I have been able to gather great experience and knowledge that I would like to share and implement for the good of our sport.

I believe that together with my cycling colleagues and friends, we have been able to expand our sport globally and I believe that as a team we can do even more productive work to help our sport grow and have stronger positions amongst other sports.

I am glad and proud to have been among the colleagues and a strong team in promoting and improving the calendar of the European Championships in the Elite category. First of all, the European Championship "Elite" on road. This allowed our fans and sponsors to see our races on TV. There was an opportunity to attract new categories and groups of fans, new sponsors, new organizers of European Championships in various disciplines, even in countries that do not have a high level of cycling today. There is a healthy competition in our sport now, which is always a good sign. Given this experience, I would like to continue working for the benefit of the further development of UEC. There is still a massive amount of work and ideas, which we could together implement for the good of cycling.
