Dear friends and cyclists,

it has been a pleasure for me to work with the UEC management boards over the last eight years. In close co-operation with our General Secretary Enrico della Casa and the highly motivated UEC staff Stephanie Strelbel, Stefano Bertolotti and Vladimiro Petsas we have been able to bring the UEC to another level. My actual Management Board colleges and friends Rocco Cattaneo, Agata Lang, Alexander Gusyatnikov, Henrik Jess Jensen, Sahib Alebakov and Alasdair MacLennan continued to support all decisions, stepping forward during this period to establish the UEC as a well-respected future-orientated Sports federation, which has been mentioned especially by our athletes. Being involved in the European Championships 2018 in Glasgow, a project that started in summer 2017, was another milestone for the UEC and I believe that with the upcoming 2<sup>nd</sup> European Championships in Munich 2022 next year, again with four different Olympic cycling disciplines, we will be recognized as a global player even stronger.

2020 has been a difficult year for us, but with a lot of passion, most of our European Cycling Championships took place, as especially the UEC-staff was working 24/7 in summer 2020 to make this possible.

It has also been a year, where more and more people realized how much fun it is to ride your bike, together recreational with the whole family, but also under the aspects of competitions. By concentrating on children, showing them how to handle a bike safely, while developing their interest in biking as a sport, there are great opportunities to get them involved in our sport.

My intention for the future in the UEC Management Committee is working further to improve existing elements of the organisation and building up visions for the future. I'm still passionate to implement my ideas into discussions and this is the main reason, why I am putting myself forward as a candidate again for being a member of the UEC-MB, as I have done it first time in Paris 2013.

I'm also ready to stand up, if I believe that it's necessary, like in the Greece congress 2009, when I stood up as a "young guy" and asked Pat McQuaid for the right to have European Championships Elite on the track.

The older ones may remember.... ☺ So I'm asking you for your support and your vote in this years election

Yours sincerely

Martin Wolf
