CANDIDATURE FOR THE UCI MANAGEMENT COMMITTEE

Dear General Secretary,

the Slovak Cycling Federation would like to nominate the president of the federation Mr. Peter Privara for the position as European candidate for the UCI Management Committee at the next Congress UEC, which will be held on the 6th March 2021.

Yours Sincerely,

Mgr. Katarina Jakubova
General Secretary
Slovak Cycling Federation

Candidate for the UCI Management Committee Peter Privara – president of the Slovak Cycling Federation

Dear Presidents and friends of European cycling,

After 8 years as a UEC Voting delegate for the UCI Congress, I kindly request your support as a candidate for the UCI Management Committee. My life is connected to cycling almost 46 years as a rider, organiser, functionary and merchandiser. I would like to offer UCI and UEC my achieved abilities and cooperation. In Slovakia we are currently accomplishing the National Cycling Centre project, which will serve almost to all cycling disciplines. As a member of the UCI Management Committee I would be in a stronger and advantageous position during construction and realisation of this National Cycling Center.

8 years ago I had my first idea of the National Cycling Centre and I drew my first sketch. In 2019 Slovak government has approved our project and allocated funds for it in a total amount of 29 million Eur. We are currently preparing construction site and project documentation. The completion of the construction is planned on the 31.12.2023. The Project is in cooperation with NOC.

The National Cycling Centre is located on 24 hectare land. The National Cycling Centre offers mainly 250m indoor wooden Velodrome, BMX racing Track, BMX freestyle park, Trial field, Pumptrack field, Road cycling circuit, Cyclocross circuit and Cross country circuit. Sport facilities are built to get UCI homologation. The centre includes accommodation facilities with the restaurant serving a capacity for 100 people, with the wellness and the spa facilities, the gym and the medical centre, the congress centre, the museum and the office.

We would like to support all cycling disciplines in Slovakia, Central and Eastern Europe. We want to organise the races for youths at the regional level as well as European and World Championships across the disciplines. The concentration of almost all cycling disciplines except Downhill and Enduro, allows us to organise the European Championships like it was organised in Glasgow in 2018.

The centre with the facilities (accommodation, restaurant and regeneration) offers to organise International training camps as a satellite of the UCI World Cycling Centre for Central and Eastern Europe.

The project enables educational and training activities for the coaches, managers, sports directors, mechanics and physiotherapists.

As an advantage we think that our location offers good connectivity with the international airports of Vienna, Budapest and Bratislava and also stable weather conditions during the 10 months of the year.

I would like to wish all of you good health and a lot of success in personal and professional life.

With kind regards

Peter Privara
