PROFILE

Date of birth: 28-10-1957

Partner Lia van Roosmalen, director of primary education school

2 adult sons Patrick en Marcel

Languages: Dutch, English, German and limited french

Characteristics:

Sense of proportion, overview, adaptation and empathy, enthusiastic, acting with integrity, sense of responsibility, result-oriented and involved.

Motivation (sport) director:

Trust, overview, discipline, ambition and results characterize my top sports past as a former cyclist, but also my personal way of working at my employer and within the various boards. With confidence and in connection, but of course focused on results.

But just like in (top) sport, results are not self-evident. Making decisions at the right time and giving meaning to people (in organizations) provides energy. Sometimes with humour and natural always with respect. Inner motivation, sense of community, social commitment and personal ambition are major drivers that ultimately determine how I have developed as a person.

Current work position

Marketing & Communication project manager at Horizon College, Alkmaar Netherlands

The Horizon College is a regional training centre (roc) for secondary vocational education and adult education. The educational institution employs 1,350 staff and approximately 13,500 students. The Horizon College has many MBO courses in technology, healthcare, trade, services, economics, welfare and entrance. We also offer various courses.

Current board positions

Member of the board of the Royal Dutch Cycling Federation since December 2013

The Royal Dutch Cycling Union is the national governing body for cycling as recognized by the international cycling federation the UCI. The aim of the KNWU board is to provide the best possible service to cycling. It wants to broaden the knowledge of and about sports and the most important subjects and better represent national and international interests at an administrative level.

As a board member I am allowed to represent the sports association at various national and International Cycling events as European and World championships and conferences. My portfolio division also includes the areas of focus Para-cycling / figure cycling, competitive sports / recreational sports / districts / UEC (Union Européenne de Cyclisme).

President of the European Para-cycling Commission Européenne de Cyclisme since November 2018

As chairman of the European Para-cycling committee, I work with the international committee members on the interests and developments of the Para-cycling sport in Europe.

The paracycling commission started on my initiative and with the approval of the UEC Management Board in November 2018. Over the past two years, we have worked hard on the development of Para cycling within Europe. This has already led to the first European championships para cycling being planned for 2021 in Austria and the European Para championships (for various Para sports) planned for 2023 in the Netherlands.

Member of the Supervisory Board at Foundation Allente since November 2019

As a member of the Supervisory Board and Remuneration Committee, we are responsible for the policy and management of the Allente foundation for primary education and day care. We also look at the results, but also at any risks. The new merger foundation Allente for childcare and education consist 13 schools at 17 locations and 22 day care centres.

Past board experience positions in cycling

- Cycling association Alcmaria Victrix Alkmaar:
Chairman and board member and also organizer of the National track championships.
- Union Cycliste International - Coordinator/Initiator Int. Track League Juniors for 12 countries
- Royal Dutch Cycling Federation - Consul of the district of North Holland
- Royal Dutch Cycling Federation - Member of the road and track cycling commission
