***Dear Presidents, dear friends in European Cycling,***

the Board of the German Cycling Federation appointed me as a candidate for the election as a European Candidate for the UCI Management Committee that will take place during the UEC Congress on the 7<sup>th</sup> of March 2021 in Odense – Denmark.

**Motivation**

Cycling has been the focus of my life now for 40 years. During this time, I have gone through many stations in cycling. From the base up to the international area. Cycling is my passion and I want to continue to contribute to the development of our sport.

Corona is changing the world from the ground up. The far-reaching consequences are not yet fully foreseeable.

Sport too, is already in the process of being changed by the pandemic. This affects both popular and professional sport. Also, our beloved cycling.

I believe that in the future, analogue and digital offers will also mix in cycling. It is not a question of creating either digital or analogue offers, but of combining both in a meaningful way. That will be one of the big tasks for the post-Corona era in sport.

Our goal must be to develop cycling everywhere and for everyone.

For all ages and levels of ability, and here the youth should be at the center of our commitment.

This requires responsible action based on transparency, integrity, accountability and the participation and integration of all nations.

Therefore, more needs to be done to transport the transfer of knowledge and know-how to all nations.

I would like to strengthen the cooperation between national federations in this regard.

I would be happy to be part of a team in which I can contribute my many years of experience, a team that will constructively develop our sport for the future.
