UK CUSTOMS AND FREIGHT INFORMATION

Since the United Kingdom's formal withdrawal from the European Union and the end of the Brexit transitions period on 31 December 2022, the rules for the import of goods from outside the UK from EU countries have changed.

It is strongly recommended that clients use the services of a Licensed Customs Broker who is familiar with the specific import requirements to the UK. The Organizing Committee will not be able to provide any storage in the UK dedicated to the teams.

If you are planning on sending items in advance of your arrival, please allow additional time for customs clearance. For more information on customs when entering the UK please [review the UK Government guidance](#).

RADIO FREQUENCIES

To use radio equipment in the UK you must apply for a Programme Making and Special Events (PMSE) licence from [Ofcom](https://www.ofcom.gov.uk) (the regulator of communication services in the United Kingdom).

It has been noted from previous cycling events held in the UK that team equipment is often operated on frequencies that are not licensable in the UK (as they are the frequencies in use for Emergency Services).

Equipment may have to be re-programmed, which can take some time. Please submit your frequency applications as early as possible.

Any questions please contact:

Radio.Spectrum@cyclingworldchamps.com

TEAM MEDICAL REGISTRATION

The UK General Medical Council can offer Team Doctors, a free, limited professional registration cover for the period of the Championships.

The advantages of taking up the offer of the free temporary registration is for team doctors to be able to write private prescriptions and access health care treatment without asking the Championships medical team for assistance.

Information about the application process can be found [here](#)

It is recommended that applications are made **at least 60 days prior to the date you plan to enter the UK**
