Latest European Championships Munich 2022 Covid-19 measures and recommendations

Munich, 03. May 2022

Dear Ladies and Gentlemen,

We hope this update finds you all well and looking forward to European Championships Munich 2022. There are less than 100 DAYS TO GO, and the anticipation is rising here in the Bavarian capital.

Thankfully, since our last communication earlier in the year, the overall situation regarding Covid-19 in Germany has improved significantly with many relaxations on the part of the local authorities and law makers. In particular, many restrictions were dropped in Germany with effect from 1 April, so we have also reconsidered and adjusted our planned measures.

Importantly, the 2G/3G regulation previously communicated to you in February 2022 will no longer be maintained, so there will be no control of vaccination or recovered status on the part of European Championships Munich 2022.

For the currently valid entry regulations to Germany, please refer to the latest info on the [Federal Ministry of Health website](#).

München

Nevertheless, to ensure a safe event for all persons involved, we make the following recommendations to every accredited participant of the event.

- A minimum distance of 1.50m should be maintained wherever possible.
- Hygiene measures should be always observed. These include frequent and thorough hand washing and coughing and sneezing into the crook of the arm or into a paper handkerchief.
- Especially indoors or when a distance of 1.50m from others cannot be maintained, medical mouth-nose protection or an FFP2 mask must be worn. Masks will be kept ready and provided at entrances.
- Persons wishing to undergo voluntary rapid antigen testing (PoC) will be provided with testing stations at selected locations to be communicated later.
- Persons with a confirmed SARS Cov-2 infection will not be allowed access to the sports venues and will be required to go into isolation.

Rest assured, should there be any changes in the legal situation or a different assessment of the situation in the coming weeks, we will inform you immediately and adapt promptly to the guidelines and measures.

Please also find attached the latest medical assessment on Long Covid from our expert medical panel.

We very much look forward to welcoming you and until then wish you a safe, enjoyable, and healthy lead up to European Championships Munich 2022.

Yours sincerely

Georg Seidl
