

INFORMATION BY THE ORGANIZATION

Training times / Team boxes / Parking

Training times

Individual time trial and Mixed Team Relay.

The individual time trial route is going on major roads, where cycling is normally not allowed. It is therefore not permitted to cycle on the time trial course outside official training times.

The start of the individual time trial is in the Wildlands animal park, where only the start can be practiced at the stated training times.

On Tuesday, September 19, training can take place from 11:00 AM to 3:00 PM on the individual time trial and mixed team relay courses.

Training on the final lap Col so VAM

The Col du VAM is closed on Monday September 18 and Tuesday September 20 due to construction work. The Col du VAM is open for training on Wednesday, September 20 and Thursday, September 21 September from 10:00 AM to 5:00 PM.

Team boxes

All countries have their own Team Box in Emmen for the Individual Time Trial and for the Mixed Team Relay. In Emmen, these team boxes are located on the parking place directly next to the finish. That is 200 meters from the start of the individual Time Trial.

On the Col du VAM, the Team Boxes are located 50 meters after the finish line on the Col du VAM. Each country has the option to place 1 team leader's car and 1 van for feeding and material. The other vehicles can be placed on the teams car park.
