1. INTRODUCTION

BMX Club Circuit Zolder and Circuit Zolder are honoured to welcome you for the UEC BMX European Cup Rounds 11 & 12.

The club, established in 2008, lies in the centre of the super-competitive race area of Circuit Zolder. The 4-kilometre long track was built in 1963 and celebrated its 50th anniversary in 2013. Since this date, a wide variety of cars, motorbikes and trucks have raced on the track, from Formula 1 to DTM. And all of this in our BMX Club's own backyard.

Lots of cycling events have also taken place on the Circuit Zolder site, such as the UCI Road World Championships in 2002 and the UCI Cyclocross World Championships in the same year. In 2016, Wout Van Aert became World Champion cyclocross right here at Circuit Zolder. Did you know that the first competition to ever gold place on the circuit was actually a cycling race? And the BMX Club has been part of this story since 2008. Since then, the club has become the biggest in Belgium! Moreover, the Lotto BMX-track is the permanent training facility for the national BMX-team! We also organized the UCI BMX World Championships in 2015 & 2019. We will host it again in 2029.

We have a timing system installed on our track. A state of the art system that, together with your transponder, gives you a perfect timing on our track. Divided over 9 loops and with a sensor in the start gate you know exactly how you performed on our track. A brand new lighting system and a roof over the 8m start gate provide some extra comfort for all riders too.

Because the European Cup in Zolder is becoming a real classic on the BMX calendar and because we had the UCI World Championships in 2015 & 2019, we modified our track multiple times to make sure we get a world-class BMX-track. New modifications will start during this year.

So who will be the fastest this year on our Lotto BMX-track?

2. TRACK DETAILS

The legendary 2015 and 2019 track is completely gone, instead we build a complete new track including 3 brand new corners and added an additional 20 meters to each line.

This track is build by H.Tracks and is a very fast and technical and is designed for racing at the top level. The total length of the track is about 418 meters.

3. THE CITY OF HEUSDEN-ZOLDER

HEUSDEN-ZOLDER is a small town in the province of Limburg, most known for its coal mining history and the famous car race track Circuit Zolder. Today it offers plenty of opportunities for walking, cycling and visiting restored historical buildings of the mines.

Tourist info can be found on: www.visitheusden-zolder.be

The UCI Bike City label supports and reward cities and regions who not only host major UCI cycling events but also invest in developing community cycling and related infrastructure. During the 2017 UCI Road World Championships in Bergen, the city of Heusden-Zolder has been awarded the UCI Bike City status, thanks to our commitment to grow and promote everyday cycling, as well as hosting UCI major cycling events. Together with the other Bike Cities, we are trying to find new ways to boost cycling in everyday life.

The province of Limburg is often referred to as the green province of Flanders. Its cycling network became one of its biggest tourist attractions and is now copied in the rest of Flanders and even abroad. Southern Limburg is one of rolling hills, with Haspengouw renowned for its castles, square farms, small villages, sunken lanes and fruit tree orchards.

In Hasselt you'll find many high-quality restaurants, which is no coincidence: the capital of Limburg proudly calls itself the city of taste. Limburg is promoting cycling in the region with new projects like "Biking through the water" and "Biking through the trees".
